3-8th Feb, 2014
Uganda

GENDER MAINSTREAMING AT NATIONAL LEVEL

Where training has been carried out

- Rwanda
- Ethiopia
- Sudan
- North TZ
- Kenya (not complete)
- Madagascar
- DRC East
- Burundi
- Uganda (ASARECA Gender training)
- Total trained 142 national bean researchers
- Mentoring has started for Gender TOTs –Kenya-

GENDER TRAINING AT NATIONAL LEVEL

Country	Male	Females	Total
Kenya	8	13	21
Uganda	3	1	4
Ethiopia	6	1	7
DRC South	20	12	32
Burundi	13	13	26
DRC East	13	8	21
Sudan	4	4	8
North Tanzania	15	8	23
Total	82	60	142

Number of households supplied with bean seed in SABRN by gender (2009-2013)

SATISFACTION WITH MARKETS ACCESS

	Women	Men
Burundi	40%	60%
DRC	49%	51
Rwanda	50	50

WAY FORWARD 2014

- Continue adherence to PABRA gender policy agreed upon by all the three network SC in 2009.
- Continue to support gender mainstreaming trainings at the national level by Gender TOTs where such trainings have not taken place or not complete;
- Continue supporting gender mainstreaming and analysis work across the networks and generation of gender disaggregated numbers;
- Continue gender analysis work (we have good gender disaggregated data) to do this in various activities within the bean value chain starting with markets;

CAPACITY BUILDING AND SENSITIZATION

- Trainings
 - Continue to support Gender mainstreaming and analysis trainings in countries/regions where it has not been carried out.
 - Build capacity in gender analysis and statistics.
-

GENDER RESEARCH

- Complete Nutrition, Market and Gender studies in Rwanda
- Continue encouraging having gender disaggregated data in both outcome and national program reports and carr
- Finalize Gender analysis of PVS activities in selected countries planned ;
- Assess the effectiveness of selected Gender responsive de-livery systems that have been developed in various countries for diverse bean products, services and technologies.

THANK YOU FOR LISTENING
